CTS INSPIRATIONS

CTS NEWS

President's Message

I would like to begin by congratulating our California Thoracic Society Outstanding Clinician Awardee **Dr. Steven Hays**, Professor of Medicine at University of California San Francisco. Please join members of CTS in honoring Dr. Hays at the Council of Chapter Representatives reception at the ATS international conference on Monday, May 20 (details included below.)

Thank you to all of you who are members of the California Thoracic Society. You have helped us to remain one of the strongest chapters of the American Thoracic Society. This month's CTS Inspirations highlights just a few of the activities at the ATS conference that are being led by members of our chapter. If you are not yet a member, we hope you will consider joining. If you have questions about our society, feel free to introduce yourself to any CTS member during the conference or email us info@calthoracic.org. We'd love to meet you!

Please plan on attending our next two CTS educational conferences. Our Southern California Conference will be held **October 4-5, 2019** at the Hotel Irvine in Irvine highlighting pleural disease management, thoracic imaging, and critical care. Our Northern California Conference will be held on **January 17-18, 2020** at the Portola Hotel and Spa in Monterey, with more details to follow.

Respectfully,

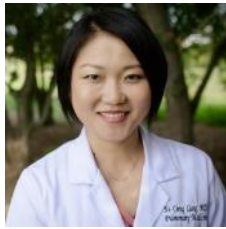

Lorriana Leard, MD
President, California Thoracic Society

PRE ATS 2019 EDITION

Please join CTS in honoring Steven Hays, MD 2019 California Thoracic Society Outstanding Clinician at the CCR reception on Monday, May 20 from 4:00-5:00 pm in the Clinicians Center in Dallas, TX (located in the Kay Bailey Hutchison Convention Center Dallas, Hall B – Level 2). Light hors d'oeuvres and refreshments will be available.

CTS members will also be participating in numerous other activities throughout ATS, including at the Clinicians Center (schedule below)

Inhalation Therapies: Practitioner Workshop on Patient Education, Devices and Digital Technology

Rajiv Dhand, MD; Roy A. Pleasants, PharmD; Richard Barbers, MD; Jill Ohar, MD;

William LeTourneau, RRT; May Lee, MD

This workshop begins with a 20 minute lecture by Rajiv Dhand, MD on patient-related gaps in optimal use of inhalers and strategies that clinicians might use to address these gaps.

This will be followed by interactive roundtables that include demonstration and discussion with multiple faculty. The roundtable topics are: 1) Meet the Professor, 2) Dry powder inhalers, 3) Metered dose inhalers, 4) Nebulization, and 5) Digital inhaler technology.

No sign-up or registration is required to attend these free educational sessions and demos. Refreshments will be served. Questions? Please send an email to: bhorner@thoracic.org

INTEGRATIVE THERAPY INTEREST GROUP

Please join us for the 3rd Annual Meeting of the *Integrative Therapy Interest Group*, sponsored by the ATS Nursing, and the Behavioral Science & Health Services Research Assemblies.
